Withlacooche (Indian Meaning) “Little Big Water”
Little Great Water”
Anthropologists believe Indian villages sprouted along the banks as far back as 12,000 years ago.

Before Inverness was named Inverness it was called Tompkinsville supposedly named after the country’s first tax collector.

Inverness (at the foot of the next) was named by a Scotsman after a city in Scotland with similar characteristics: a chain of beautiful lakes with the city lying nestled between. Lake Toala Apopka has no Loch Ness Monster (probably not in Loch Ness Lake either).
